

OVARAS NOUARA EL YASSMINE

Product Designer

+ (213)-551-737-049 @ouaras.yassmine@gmail.com http://linkedin.com/in/yassmine-ouaras/ https://bit.ly/yassmine-portfolio

SUMMARY

Product Designer with 5+ years of experience across UI design, UX design, user research, branding, and digital media. Skilled in Figma, Adobe Illustrator, and Adobe Photoshop, with experience designing user-centered interfaces, design systems, and visual identities for web apps, platforms, and startup brands. Delivered product and brand design work for solutions including a crowdfunding platform, biobanking software, and client websites, balancing usability, clarity, and business goals through cross-functional collaboration.

EXPERIENCE

Graphic & Product designer

Freelancer

02/2022 - Present remote

- Redesigned and iterated on the Confirmoo website and web app, improving clarity, usability, and flow across the user experience over time.
- Designed Yinvesti, a crowdfunding platform connecting investors and startups, translating user needs into intuitive UX flows and a clean, accessible UI.
- Created brand identities for multiple startups, building visual systems that helped each brand launch with stronger clarity and consistency.
- Led UX research on travel booking platforms and developed an all-in-one app with a community feature shaped by user insights and usability needs.
- Delivered print and social media assets for clients across tech, travel, food, and education, supporting engagement and consistent brand presence across channels.
- Mentored an aspiring designer from the ground up, helping them build a strong portfolio, land their first graphic design role, and kickstart a thriving career.

Lead Graphic & Product designer

DiData

01/2023 - 07/2025 remote

- Built a scalable UI kit and modular design framework in Figma, aligning the product with brand guidelines and improving interface consistency and usability.
- Led the redesign of DiData's website, improving navigation, clarity, and user experience through UX best practices and user-centered thinking.
- Established 80+ slide decks, infographics, print materials, and social media assets, delivering cohesive visual communication in collaboration with product, engineering, and marketing stakeholders.
- Refined the brand's visual identity, including logo updates and a full graphic charter, strengthening brand consistency across product and marketing touchpoints.
- Prioritized user-centered design across all projects, aligning visuals with business goals while keeping interfaces clean, human, and easy to use.

Graphic Designer

Glinted

01/2022 - 01/2023 Algiers, Algeria

- Designed social media visuals for two in-house brands, strengthening brand awareness and supporting higher engagement across digital channels.
- Created print materials for professional events, improving brand presentation and supporting stronger audience interaction at booths and activations.
- Took part in team strategy sessions and contributed ideas that helped shape two major marketing campaigns.

EDUCATION

Associate Degree in Graphic Design

INSIAG institut national des arts et d'industrie graphique

02/2021 - 10/2023 Algiers, Algeria

KEY ACHIEVEMENTS

Redesigned a biobanking software.

Led a critical redesign of DiData's biobanking software using a modular, user-centered approach, improving usability and helping clients navigate complex tasks more smoothly.

Built a Crowdfunding Platform

I was responsible for designing "Yinvesti" a crowdfunding platform that connects Investors to start-ups, from UX research to the final UI design.

Created cross-channel brand assets.

Designed cohesive visuals across social, web, and print for multiple brands in travel, health, tech, and education contributing to improved clarity, consistency, and recognition

SKILLS

Product Design	UI Design	UX Design
User Research	Wireframing	
Prototyping	Design Systems	Figma
Adobe Illustrator	Adobe Photoshop	
Brand Identity	Visual Design	
Adobe CC	Attention to Detail	

COURSES

Fundamentals of Front-End Development

Introductory course in HTML, CSS, and JavaScript focused on building responsive websites, with hands-on training in Git and real-world project deployment.

INTERESTS

Psychology & Human Behavior in Design

Curious about how people think, feel, and decide, always digging deeper to design with empathy and intention.

Creative Problem-Solving & Self-Sufficiency

Naturally driven to figure things out on my own, stubborn in the best way when it comes to turning vision into reality.
